Yes again, and the program is not effective until published in the FR.

And do we have to publish the final approval in the FR? Is it effective upon signature or upon publication?

Just to clarify – our notice for hearing must be in the federal register? This is different from other programs --- so I want to be clear.

Thanks  
jmg

I just spoke to OGC about the fed register process. There are two steps to it. One getting EPA approval and then it goes to the Office of Federal Register. Steve said OFR will not pre look at it, but they have done expedited notices before where they sent it to OFR on a Thursday and it was published on a Friday. SO we will need to make sure we can accomplish that.

He also suggested if we wanted to front load the process we could talk to Sandy Evalenko in OW who generally reviews notices and other docs (like delegations). That way we could be ready to go just filling in the dates

The bottom line is it could take two weeks to get a notice in the fed reg but we could expedite it with the right support.

I have made a number of edits to makes sure this is consistent with the Statute and the Regulations and parrots the applicable language. Since we have to publish a notice of this in the Federal Register, which includes identifying the time and place for the public hearing, we need to figure out how long this will take, and how we can streamline or front load the process. I made a suggestion, that perhaps we could see if we can prepare the notice, and get preapproval by the office of the federal register, and then we just need to fill in the dates.

We can also streamline this by getting the mailing lists, and papers lined up since we have to notice it in those forums also.

Phil

Mary and Blake

Attached is a shortened version of the timeline. I am sending this to Tom to run by the Attys early tomorrow and our experts. If they suggest any changes I will let you know. One addition to what you received earlier is that I have included Tribal Consultation.
